GIRL GONE

Thirteen Year Old Sanford Miss Has Disappeared

Sanford, Me., Nov. 27.—Bessie Yull, a pretty thirteen year old girl, disappeared unaccountably on Friday. The girl is large for her age and has been working at the Allen cafe. Friday forenoon her mother, who is sick, asked her to go to the store for some medicine. She did not return, and Police Officer Bennett was notified of the fact. The officer found that she was seen to have taken the 12.30 car for Kennebunk, and it is believed she has gone to Boston.

Some of the girl's little friends say she had only \$2.25 in money. She has frequently told them that she was going to see her father who lives somewhere in Massachusetts, although neither she or her mother are believed to know where.

The weather man and the coal man are not friends.

WILL BROOKLYN DRY DOCK SINK FROM SIGHT ?

Narrow Escape on Friday from Loss of the Whole Costly Affair

New York, Nov. 27.—The World today publishes the following:

Dry Dock No. 4, at the Brooklyn navy yard which is to be known as "the hoodoo dock," almost sank yesterday into the bed of quicksand upon which it is being built. Only the prompt work of sailors prevented its collapsing.

The latest trouble with the still unfinished structure which is the largest in the country and the only one on the Atlantic coast big enough to hold the new Dreadnought, started last Thursday afternoon. Water began to flow into it and the alarm was spread quickly through the yard. But all the mechanics were home, enjoying Thanksgiving.

The sailors on the various battleships were summoned as a desperate resort to save the day. They knew what a list with a cargo that couldn't be jettisoned meant and they set at work at the pumps with a will. They couldn't have worked harder if they had been on a sinking vessel in mid-ocean; but pump as they would, the water continued to flow in and they could not gain an inch on it.

Rebays were organized, and the sailors worked all night. But to add to their troubles a 36 inch sewer pipe, which passes under the dock, broke just after daybreak and its flow washed away great quantities of sand from underneath the dock and upon which it rests.

This made necessary the building of a coffer dam all around the dock to prevent its going to pieces. The pumps were kept going all day, and it was still nearly full of water last night. The extent of the damage could not be determined. The dock is 650 feet long 139 feet wide and 100 feet deep.

Source of Constant Worry

Besides costing to date almost \$1,000,000, much of which has been spent in vain endeavors to prevent the undermining of its foundations, the dock has caused the officials of the navy more worry than reformers and inquiry boards combined. The original cost was placed at \$1,329,000.

Two contracts for the construction of the dock were cancelled after the

firm had abandoned the task of reinforcing its foundations. A third firm, Holbrook, Cabot and Rollins of Boston took up the work on last Monday.

Engineers have been divided on the subject of the possibility of constructing the dock because it rests on quicksand but Secretary of the Navy George von L. Meyer and Rear Admiral Holliday have been confident the work could be finished. The side retaining wall is of solid concrete, 21 feet at the base and tapering to 4 feet, 8 1-2 inches at the top; but near the head of the dock runs the sewer. It burst when the first contractors were at work, and when the second firm stepped in a gate was put in the sewer to divert the flow into another pipe, which emptied into Whitney basin.

A Menace to Health

But soon the surgeon of the navy yard complained that the new flow of sewage was a menace to health, and this gate was ordered opened. The contractors stood firm and refused to permit it, but last July, when the superintendent was away, a written order from the naval authorities to open the gate was served on another man, who knew nothing about the controversy, and he complied with his instructions.

The foreman came to pass. The pipe broke and sewage poured in the excavation, undermining the soil for yards and causing a cement elbow on the salt water main to break. This caused a cave-in, that resulted in a corner of the iron plating room sinking into the hole.

Another difficulty has been "ground water," which is prevalent in the vicinity of the dock. The base is built upon 9,000 piles but is not level. It slants upward on each side so that the bottom of each side wall is nine feet above the centre of the base, a form of construction which the builders say gives the side walls a tendency to slip down, if built on a hillside. The piles are forty feet long and the plans, filed twelve years ago call for 65,000 yards of concrete, 4,800 yards of granite, and 800,000 feet of lumber.

rocks on the shore. It is believed Mr. Strout committed suicide by drowning because of poor health. Sexton White, who has charge of the cemetery dreamed a few nights ago that Strout's body was there and unable to shake off the impression, visited the spot Friday to satisfy himself.

STATE COLLEGE

The winter courses in dairy farming and creamery buttermaking begin January 4 and close March 11. Dairy farming is pre-eminent in New Hampshire agriculture. The course in dairy farming this year has therefore been materially strengthened by the introduction of several new subjects. Courses will be given in improving the soil raising of crops, feeding, breeding, and judging of dairy cattle, and on the making, handling and marketing of dairy products on the farm. It is the business or occupational course and the aim is to teach the fundamental principles of successful dairy farming with as much detail as the short time allows. The course in creamery buttermaking is intended for those desiring to take up factory work. The college conducts a commercial creamery the entire year, thus offering an opportunity for study and practice in creamery operation and management. For further information and circulars describing courses in detail, write to Dairy Department, New Hampshire College, Durham, New Hampshire.

NEWFIELDS

The whist party and Dutch supper, held at the residence of Mr. William Sheehy, proved a great success. The sum of \$27 was realized and the delightfully pleasant manner in which everything was planned made a most enjoyable evening. Four rooms were given up to the players, while another was reserved for the children, who played their own games and were here served refreshments. Appetites were keen after the strenuous strain for prizes and the Dutch supper was fully appreciated. It consisted of frankfurts, rolls, potato salad, Dutch apple cake and coffee. Mrs. Sheehy in her beautiful home proved such a hospitable and pleasant hostess we hear voices in the air asking for another party.

Beginning Nov. 20 there are to be special services at the Methodist church, and many able preachers from out of town are to assist the pastor, the Rev. L. D. Bragg. The

THE CALIFORNIA MISSIONS

Relics Which President Taft Has Hopes to See Preserved

The Pacific coast is in the midst of an active movement to preserve the ancient Spanish mission church edifices in California from total decay. Several of these picturesque relics of the age of romanticism in America, long before the coming of the pilgrims, being in a bad way from the total neglect during more than a century.

The widespread attention called to the subject by a recent speech of President Taft in California has so stimulated the movement that it is expected the east will join with the west in helping to restore the unique specimens of medieval old world ecclesiastical architecture.

David Starr Jordan, president of Stanford university, has declared that a rich man could desire no greater monument than that of the memory of having perpetuated one of

those beautiful specimens of architecture, the most ancient remnants of early American history.

Bishop Johnson of the Episcopal church in southern California calls the mission national architecture and says it is due to the memory of the ecclesiastical fathers that the work they executed so beautifully, hundreds of years ago, shall be saved, by the united efforts of Americans, regardless of religious faith. Gov. Gillett of California has issued an appeal. The Landmarks club of Los Angeles is at the head of the movement.

Among the finest missions are Santa Barbara, San Juan Capistrano, San Antonio, San Rafael, San Fernando and San Gabriel.

BERWICK HAS FIREBUG

Two Incendiary Fires in the Town in a Short Time

Berwick, Me., Nov. 27.—Residents are much excited by the second fire supposed to be of incendiary origin.

FROM EXETER

Academy Work is Resumed

Thanksgiving wedding and Other Events

An Exeter Man is to be Buried in Utah

Exeter, Nov. 27.—Prof. E. D. Sanderson of Durham is to address the men at the November meeting of the First Parish Men's club, Monday night.

The academy Thanksgiving recess closed Friday night at seven o'clock. It was somewhat longer than usual, as heretofore it has closed at three o'clock, and recitations were held in the afternoon. About one-half of the students remained in town.

Luther F. Bames is spending a short time with his sister in Manchester.

Charles Morrison of Wolfboro is visiting Mr. and Mrs. Charles Small on Main street.

Thanksgiving day was usually quiet in police circles, not a single drunk being brought in. The officers kept close watch for these troublesome individuals, but all was in good order, and the day was passed in a quiet manner. One lone tramp was registered at the police station Wednesday night, and as the weather was so unfit for journeying yesterday, he decided to spend the day and next night as a guest.

Exeter, Nov. 27.—William Greydon and Miss Bessie Helen Hanson, both of Roxbury, Mass., were married on Wednesday evening by Rev. Raymond H. Huse at the home of Mr. and Mrs. John Coleman of Columbus avenue. For eight years the groom resided in Exeter, employed at the machine works. He is now employed at a Roxbury shoe factory, where the bride is a stitching room forewoman. The best man was Matthew Coleman of Lynn, the bridesmaid Miss Mahar of Roxbury. Mr. and Mrs. Greydon will reside in Jamaica Plain, Mass. They remained over Thanksgiving with Mr. and Mrs. Coleman who entertained a dinner party of thirty-five.

George F. Richards, Jr., who died on Monday at Lake City will be buried there. Register Richards, his father, has been informed that every arrangement for the funeral will be made by newspaper friends in that city. The dead man was aged thirty-five and was born in Boston. In 1892 he entered Phillips Exeter academy as a member of the class of 1896. He was a reliable guard on Exeter's victorious eleven of 1892. In 1895-6 he played at guard on Boston College eleven and for a few years following played on the Newton and other athletic associations in the vicinity of Boston. For several years Mr. Richards was attached to the staff of the Boston Herald and won reputation as a writer upon sports. Of latter years he has resided in the West, recently attached to the staffs of Butte, Mont., and Salt Lake papers. He was a young man of imposing presence and of qualities which won friend wherever he went.

"The Little Workers," a high street club of young girls, filled two large baskets with every substantial and delicacy for a typical Thanksgiving dinner. One was given to a poor Polish family, the other to a needy American family.

There were but two prisoners at the jail over Thanksgiving day. Work in improvement of the water works basin which had been in progress since early October, has been completed. The dam has been heightened by two feet and a half and the banks around the pond have been built up, which with a normal rainfall will give a water supply ample for any exigency. Mr. George A. Sampson of Boston, the engineer in charge, left Exeter on Tuesday, much to the regret of the many friends he made during the stay. He graduated from Dartmouth in 1901, having been pitcher on the college nine. At one period he was an assistant instructor at the Massachusetts Institute of Technology.

East Rockingham Pomona grange will hold its annual business meeting and election of officers, with Gilman grange at the grange hall, Exeter, on Wednesday, Dec. 1 closed sessions at 10.15 a. m. and 2 p. m.

Court Wheelwright, Foresters of America, will hold a three days fair, January 24-6, to raise funds to defray expenses incident to the annual meeting of the grand court, which will be held in Exeter in May, 1911. The fair will be highly attractive.

Edward J. Hart of Princeton, is sending the Thanksgiving recess at home.

Principal Amen was recently elected vice president of the Massachusetts School Masters' club. Grapple hose company will have its annual supper next Wednesday evening at the house on Front street. Principal Amen is taking a trip of a fortnight or more, mainly to New

York, in the interest of the academy.

The Cilley, Colton and Fluke families with others to the number of 18 united in a Thanksgiving dinner at Mrs. F. P. Hunt's.

In Mary S. Francis, 11 daughter of Prof. and Mrs. William A. Francis, Exeter has a representative in the 26 undergraduates at Wellesley college who received "W's" for excellence in outdoor organized sports during the season just closed. The sports counting in the championship events included archery, golf, basketball, field hockey, tennis and running. Participants limited to the three upper classes.

Messrs. George E. Warren and Solomon G. Warren and families are Thanksgiving visitors at their old home. Mr. George E. Warren has recently removed from Dorchester to Swampscott, Mass.

Mrs. George E. Higgins, who had long been a typhoid fever patient at the Cottage Hospital, was discharged Wednesday.

William S. Day, Charles F. Ing, Frank D. Vickery and William Melville, attended the funeral services of James P. Whidden at Haverhill, Mass., on Wednesday, as representatives of the Swamscott lodge of which the deceased was a member.

An enjoyable social dance was held on Wednesday evening at the Town Hall. Music was furnished by Edward A. and Richard Shute. The committee consisted of Charles Block and William Fuller.

Mr. and Mrs. Chester D. Hatch left

on Tuesday for Pittsfield, where they spent Thanksgiving.

The students who remained in the town over the Thanksgiving recess enjoyed a bountiful dinner at Alumni hall, where a large number partook of the excellent menu. The tables were spread and arranged in form of an M, and the guests were most interesting. H. W. Wagoner of Fresno Cal., acted as toastmaster, and those who responded with toasts were Thomas H. Cornell of Freeport, Pa., on "Athletics," J. H. Leighton of Tunkannock, Pa., on "Old Exeter," J. G. O'Malley of Scranton, Pa., on "The Faculty," B. Forman of Milwaukee, Wis., on "The President," K. M. Smith of Rhinebeck N. Y., on "The Ladies," P. C. Stetson of San Rafael Cal., on "The Monthly," and M. D. Forsay of Peekskill, N. Y., on "The Fellows." The toasts were printed in red and quite attractive.

Union Thanksgiving services were held on Thursday morning at the Baptist church, the sermon being delivered by the Rev. Ansley B. Woodsum, the pastor.

Miss Eleanor Collins of Tufts college, spent Thanksgiving with her parents, Mr. and Mrs. Clarence M. Collins.

Clinton Elwell of Harvard law school, son of Col. and Mrs. R. N. Elwell, spent the Thanksgiving recess at his home here.

Dr. William C. Thayer, head master of St. Mark's school of Southboro Mass., will address the Christian fraternity at the academy Sunday evening.

TO BE FOUGHT SAME AS BRYAN

What Cannon Has to Say
Regarding Insurgents

DEFENDS RULES OF HOUSE

Says They Will Remain Substantially
as They Have Been—New Tariff
Has Increased Imports and Exports
—Hits "Protectionists For Their
Own People"—Declares That Cum-
mins Read Himself Out of Party

Kansas City, Nov. 27.—"When
Senators Cummins, La Follette,
Bristow and their so-called 'progress-
ive' following join hands with Mr.
Bryan in making war upon the Re-
publican members of congress who
passed the tariff bill and upon the
president who signed it, in that con-
test I know of but one way to treat
them, and that is to fight them just
as we fight Mr. Bryan and his follow-
ing."

Such was the declaration of Speak-
er Cannon, who delivered the prin-
cipal address before the Kille and Fork
club here last night. Mr. Cannon
said Senator Cummins alone read
himself out of the Republican party.

He defended the rules of the house,
saying that they will remain sub-
stantially as they have been and are
so long as there is a congress. Speak-
ing of the Republican record in con-
gress, he said:

"We have enacted new laws that
were denounced as revolutionary when
they were under consideration, but
which are now looked upon as falling
short of expectations."

"The monthly summary of com-
merce and finance, issued by the de-
partment of commerce and labor,
shows that for the months of August,
September and October under the new
tariff law there was a substantial in-
crease in all imports over the im-
ports of the same months in 1908. The
increase in imports amounted to \$73,-
000,000 over those for the same period
in 1908 and \$21,000,000 over the same
period in 1907, the greatest year un-
der the Dingley law. Our exports for
the same months increased over those
for last year by \$41,000,000."

"The senators and representatives
who call themselves 'insurgents' and
who voted against the enactment of
the Payne bill, voted to increase or
maintain the duties on the industries
and products of their own states and
sections. They were protectionists
for their own people, but they were
opposed to protection for other peo-
ple in other sections."

"There was not one member of the
Republican majority who secured in
the bill as enacted all that he had con-
tended for. President Taft, Senator
Aldrich and myself all accepted more
compromises than the so-called 'in-
surgents' were asked to accept. In
Illinois we wanted free lumber, and
my constituents wanted a duty on pe-
troleum because they have the great-
est independent oil producing district
in the world. We were beaten, but
we did not make our own interests the
only interpretation of the Republican
pledge to revise the tariff."

"Senator Cummins complains that I
have read him out of the Republican
party. Other sensitive gentlemen
made the same complaint against
President Taft. The senator does me
too much honor. I have not the au-
thority to read any man out, nor have
I the disposition. I think I may say
the same for the president. I have
been a member of the Republican
party since it was organized and I
have never known of any man or
group of men being read out of any
party except by themselves."

GAGE AGAIN MARRIED

Former Secretary of Treasury Takes
Bride Many Years His Junior

J. Gage, former secretary of the
treasury, was married to Mrs. Ada
Bailou, daughter of George M. Bailou,
at her parents' home in Coronado.
Gage is 73 and the bride, a
widow of 35.

Mrs. Gage married Robert L.
Crane in 1902, but they were divorced
two years later in New York. She
became later a member of the society
in one of the "Floridors" companies.
Gage has been married twice before.

HOME IS BROKEN UP

Mrs. Christy Attributes Her Troubles
to Christian Science Cult

New York, Nov. 27.—Mrs. Howard
O. Christy, wife of the noted Ameri-
can artist, declares that the domestic
difficulties which have led her to be-
gin suit for the possession of her
daughter, Natalie, were due to the
teachings of Mrs. Stetson, who was
recently excommunicated from the
Christian Science church.

The woman who fifteen years ago,
four years prior to her marriage,
posed for Christy and brought him his
first notice in the art world, declares
now that they are separated through
the influence of the Christian Science
cult. She claims that the teachings
of Mrs. Stetson and her followers
have broken up a home that for eleven
years knew naught but immeasurable
happiness.

She states that she herself is some-
what to blame in the matter; that she
first brought her husband within its
influence, first as a sufferer, then saw
him become so wrapped up in its
tenets that he lost love for her. Fin-
ally, following his conversion to
Christian Science, she states that
Scientists began to run things in her
home.

Mrs. Christy is stopping at the
home of her brother-in-law. She re-
fuses to make any statement as to
whether or not she contemplates di-
vorce proceedings.

Washington, Nov. 27.—The de-
mand for Christmas stamps issued by
the American Red Cross has been so
great that the aggregate number of
orders from the printer exceeds 50,-
000,000. Of this number 38,000,000
have already been distributed.

Eighty percent of the proceeds of
the Christmas stamp sales will be dis-
tributed among the several states and
other agencies making a fight against
tuberculosis and 20 percent will be
paid into the Red Cross treasury as a
fund from which the expenses inci-
dental to special work may be met.

IS UNFIT TO WEAR JUDICIAL ROBE

Gompers Repeats His Opinion
Concerning Justice Wright

Washington, Nov. 27.—"I repeat
what I have said heretofore. Justice
Wright is biased and is unfit to wear
the judicial ermine."

In these words Samuel Gompers re-
ferred to Associate Justice Wright of
the district supreme court, who sen-
tenced Mr. Gompers, John Mitchell
and Frank Morrison to varying terms
of imprisonment for contempt of
court in the Ducks Stove and Range
company case.

"If the supreme court of the United
States declines to permit the issue to
come before it for review or affirms
the decision of the lower court 'will
you ask the president for a pardon?'
was asked Gompers.

"I will not," he replied.

HOUSE CLEANING FINISHED

Ten More Heads Lopped Off In New
York Custom House

New York, Nov. 27.—Ten more as-
sistant weighers have been dropped
by Collector of the Port Loeb from the
customs service. The collector
announced that with these dismissals
the "general house cleaning" in the
customs house as the result of the in-
vestigation into underweighing frauds
had been completed. Some individual
cases remained, however, on which
he might find it necessary to take ac-
tion, the collector added.

Including yesterday's dismissals, a
total of eighty-three men have been
removed by the collector since the
work of readjustment of the staff in
the customs service began.

nouncement made by Professor Donald

THINK SISTER WAS A DECOY

Hattie Le Blanc's Brothers
Investigating Murder

ANTONIO LE BLANC GONE

Is Brother of Mrs. Glover and Owner
of Laundry and Dwelling Occupied
by Murdered Man—Buggy Seen in
Alley Close to Scene of Tragedy on
the Night It Occurred Considered an
Important Clue

Waltham, Mass., Nov. 27.—It is
the belief of the brothers of Hattie
Le Blanc, the 16-year-old Waltham
girl who is charged with the murder
of Clarence F. Glover, that their sis-
ter was merely a decoy to lure the vic-
tim to his laundry and that he was
killed by another. The brothers have
been investigating the case on their
own beliefs and have accumulated
evidence which they will present to
District Attorney Higgins. They have
detectives on the case and have re-
tained counsel for their sister.

Whether Hattie Le Blanc was in the
habit of meeting Glover in the laundry
is one of the matters which the police
particularly wish to determine. They
are searching for witnesses who may
have seen the couple enter the build-
ing Saturday night, and who may also
have seen a third person follow the
couple.

The police have learned that the
Main street house, where the Glov-
ers lived, and also the laundry build-
ing, are assessed to Antonio Le Blanc,
a brother of Mrs. Glover, as owner.
And with this has come the informa-
tion which the police regard as very
interesting, to the effect that Glover
and Antonio Le Blanc have not been
on the best of terms. It is said that
both Mrs. Glover and her brother
Peter have failed to give the police
any information as to the where-
abouts of Antonio.

District Attorney Higgins and State
Detective Charles E. Byrnes, who has
been assigned to the case, were in
conference with various people who it
was thought might throw some light
on the matter. Nothing as to the
progress towards a solution, however,
was given out.

A new and startling discovery in the
murder was the discovery that a girl
was heard crying out in the alley that
leads to the laundry about the time
of the tragedy and that a covered
wagon, believed to have been a bug-
gy, was seen in the alley near the
laundry.

This strengthens the belief that a
third person was connected with the
tragedy; that this third person reached
the laundry where Glover and the girl
were by means of a stairway running
from the alley, and that the third per-
son escaped in the buggy.

It would be perfectly feasible for a
person to reach the laundry in a bug-
gy through this alley, ascend to the
collar room by way of the outside
stairway, where the shooting took
place, and get away in a buggy.
Now, the question is, who was in
that buggy? Did the person in the
buggy do the shooting, and did Glover
think it was Hattie Le Blanc? Was
Hattie Le Blanc carried away in that
buggy?

Tobey Le Blanc Found?
Boston, Nov. 27.—The Post says:
Tobey R. Le Blanc, for whom the
police have vainly searched in their
investigation of the Clarence F. Glover
murder at Waltham, has been
found by the Boston Post.

Last night a Post reporter found
that Le Blanc was living at 5 Taylor
street, South End, under the name
of White. The English translation of
his name was assumed by Le Blanc
over a year ago.

The police gave the newspaper men
to understand that the much-sought
Le Blanc had left no traces by which
they could locate him. They told of
vain attempts to get the information
as to his whereabouts from those they
believed should know.

And aside from locating Le Blanc,
the Post learned yesterday that but a
few hours after the Waltham police
had ceased their surveillance of the
Glover house Tobey Le Blanc called
on his sister and spent many hours
in her company.

NEW RECORD FOR WRITING

New York Man Puts Out Fifteen
Hundred Words in Fifteen Minutes

St. Joseph, Mo., Nov. 27.—At the
meeting of the Missouri Valley Com-
mercial Teachers' association H. O.
Blaisdell of New York made a new
world's record by writing 1500 words
from copy he had not seen before in
fifteen minutes.

This was more than one hundred
words a minute, the previous high
record being ninety-five words a mi-
nute.

Two Women Killed in Feud
Williamson, W. Va., Nov. 27.—
Firing from the doorway of their home
on a shelf's posse to give their father
and brother an opportunity to es-
cape, Mrs. Charles Daniels and her
16-year-old daughter were shot to
death near Devon by the officers. The
shooting of Mrs. Daniels and her
daughter grew out of a family feud.

BAFFALO MAN RUNS AMUCK

Kills a Man and Injures Policeman
Before He Is Captured

Buffalo, Nov. 27.—Charles Strohl,
an employee of a bakery, walked into
the reading room of the Buffalo public
library, pulled a revolver and shot
and killed Franz Stantz. The mur-
derer rushed out of the building, pur-
sued by a number of people and turned
into an alley, exchanging shots with
his pursuers, one shot striking an of-
ficer in the hand, disabling him.

By this time 1500 people had gath-
ered. Strohl, talking shield behind a
brick wall, occasionally looked over
and fired. For fifteen minutes he
held the crowd at bay. Finally, af-
ter the police had fired forty or fifty
shots, they executed a flank move-
ment and Strohl was finally cornered
and caught.

COOK BREAKS DOWN

Polar Explorer Has Gone Into Tem-
porary Seclusion in New York

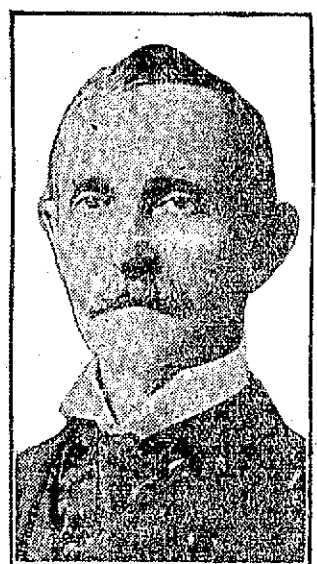

New York, Nov. 27.—As a result
of the mental strain under which he
has labored in preparing his records
for the Danish scientists, Dr. Freder-
ick A. Cook has suffered a nervous
breakdown. He is at the home of an
intimate friend in New York, but his
condition is such that not even his
closest personal friends are allowed to
see him.

Looking haggard and ten years old-
er than when he arrived from the
Arctic regions in September, the ex-
plorer left his hotel at Bronxville
Wednesday afternoon for a visit to
New York. There was such a change
in his condition he did not return to
Bronxville and Mrs. Cook joined him
here.

MOURNERS BLOCK BUTLER'S STREETS

Turn Out In Force at Funeral
of David De Armond

Butler, Mo., Nov. 27.—Hundreds
of prominent public men of Missouri
and many from outside the state
joined the citizens of Butler in paying
respect to the memory of Congress-
man David A. De Armond, who was
burned to death here in a fire that
destroyed his home.

Copyright by Clineinst. Washington.
DAVID A. DE ARMOND

The bodies of both victims were
buried in the local cemetery in one
casket, following simple services at
the Methodist Episcopal church, where
the late congressman had been a
member. The burial services were
in charge of Masons.

No such honor and show of affec-
tion for a departed citizen has been
displayed in Missouri in many years.
The coffin was banked high with
floral emblems and the little church
was crowded. Mourners literally
blocked the streets leading to the
church and hundreds followed the
bodies to the cemetery and stood about
the grave.

TWO AERONAUTS KILLED

Had Sailed Five Hundred Miles When
Overtaken by Disaster

Berlin, Nov. 27.—The bodies of
Dr. Breckenmann and Hugo Francke,
members of the Aero Club of Berlin,
were found near Plume, Austria-
Hungary. Near by was their balloon,
the Keltan, a huge rent in the en-
velope telling the story of their death.

The aerial exploits of the two men
in the past have attracted much at-
tention and no little alarm on the part
of intimate friends. They ascended
on Monday from a suburb of Berlin.
The point at which the bodies were
found is in an almost direct line south,
500 miles from Berlin.

WANTS TO SEE ROCKEFELLER

Young Man From Holland
Meets With Rebuffs

HE DASHES BY GUARDS

Fired Upon, but Not Hit, as His Au-
tomobile Goes by at Sixty-Miles-an-
Hour Clip—Wants to Interest Oil
King in Scheme to Drain the Zuyder
Zee, and Says He Will Not Give Up
Attempt Until He Is Successful

Cleveland, Nov. 27.—A young man
from Holland, who signs himself
Count DeVries, has made three fur-
ious but futile attempts to see John
D. Rockefeller at Forest Hill.

Once yesterday, in an automobile,
he dashed past the guards at the en-
trance to the Rockefeller estate at the
rate of sixty miles an hour. He was
shot at but not hit, and managed to
reach the Rockefeller front door.

He opened the door and walked in,
but was met by the butler, who, aided
by guards, thrust him out. Then
he was forcibly ejected from the
grounds.

This automobile sally followed two
other attempts, one earlier in the
day and one on Thanksgiving day.
The count, who is stopping at one of
the best hotels, has come all the way
from Holland to interest Rockefeller
in a scheme to drain the Zuyder Zee
and turn its present bed into a swil-
ling land of gardens and homes.

As yet the count has failed to reach
the oil king, but he says he will say
here until he gets an audience. If
he doesn't get a chance here he in-
tends to follow the oil magnate to New
York.

The count, who arrived on Monday,
did not make an attempt to see
Rockefeller till Thursday, when he
thought the rich man would be in a
mellow mood following his Thank-
sgiving day dinner. He found the
gatekeeper, however, a rock in his
path.

Though he explained his mission to
Pat Lynch, who has been on the For-
est Hill gate for ten years, Lynch was
not impressed, and the count was
forced to turn back without getting
within gunshot of the oil man's man-
sion. But the count, not worried
over his rebuffs, says he will try
again.

ABANDONED TO FLAMES

Nearly Two Hundred Bodies Remain
In St. Paul Mine

Cherry, Ill., Nov. 27.—The clos-
ing chapter in the St. Paul mine hor-
ror was written when the last of the
state troops and the army of mine of-
ficials and experts departed, leaving
the widows and orphans of Cherry to
mourn for their 310 dead and the 150
bodies abandoned to the flames in the
sealed mine.

With the departure of Company C
twelve deputy sheriffs took up the
work of guarding the upper parts of
the mine, which some of the miners
in their anger at the abandonment of
rescue efforts had threatened to de-
stroy with dynamite.

The mine inspectors left for Chicago
to lay before Governor Denen their
findings.

JAPANESE A WHITE MAN?

Question Is Being Threshed Out In
Court at Richmond

Richmond, Nov. 27.—The question
whether a Japanese is a white man
within the meaning of the federal
statute upon naturalization was vig-
orously debated in the United States
circuit court of appeals here.

Namyo Bessho, former enlisted man
and steward in the United States
navy, is an applicant for American
citizenship and the district attorney
maintains that he is barred by the law
which gives the right of citizenship
to "all white persons" and all those
of African descent who are of good
moral character. The case may not
be decided for several days.

FRENCH SCHOOL QUESTION

Premier Briand Points Out What He
Considers Clergy's First Duty

Paris, Nov. 27.—In the chamber
of deputies, Premier Briand replied
to a speech by Abbe Gayraud, mem-
ber for Finistere, who had defended
the action of the episcopate concern-
ing the public school question and
voiced the sympathy of Catholics for
the pope.

M. Briand said the time was rapidly
approaching when, as several times
had been the case in French history,
bishops and priests subjected to the
domination of Rome would prefer to
do their duty as Frenchmen to their
duty as Catholics.

To Investigate Milk Trust
Buffalo, Nov. 27.—Attorney Gen-
eral O'Malley has appointed John B.
Coleman to investigate the charges in
regard to the existence of a combina-
tion to control or advance the price of
milk in Greater New York.

Strike May Be Settled
Barre, Vt., Nov. 27.—The lockout
of 4000 granite cutters in this section
may be settled at a conference to be
held in Boston Monday.

WIRES PROBABLY CUT

Reason For State Department's Fail-
ure to Hear From Nicaragua

Washington, Nov. 27.—The state
department is still without information
from the American vice consul at
Managua, Mr. Caldera, and the
strong inference is that his dispatches
have been intercepted by the Nicaraguan
officials under President Zelaya,
at least to the extent of cutting the
telegraph wires.

The department has no doubt that
Caldera has attempted to communicate
with it several times during the last
week or more. Owing to the absence
of specific information which was
sought to be obtained through Caldera
and other agencies, the officials here
undoubtedly will delay at least for a
time before taking further action.

A dispatch from Bluefields reassures
the United States as to whether Ameri-
can interests or American citizens
are being interfered with by the revo-
lutionary army. In effect the dispatch
states that Americans are safe.

SUIT AGAINST POLICEMAN

Boston Girl Asks \$2000 Damages From
a Providence Bluecoat

Providence, Nov. 27.—A \$2000 suit
for alleged assault and false impris-
onment was filed in the superior court
here against Patrolman Edward J.
Kelly of this city by Willow M. Ash-
ton of Boston, a minor, who sues
through her next friend, Rebecca
Ashton.

The plaintiff claims that she was
taken from a blacksmith shop on
Penelope place and dragged to the po-
lice station by the defendant July 30.
She seeks to recover for torn clothes
and bruises, and shock to her sensi-
bilities. She claims that there was
no probable cause for her arrest.

WOMEN ARE SAVED BY CITIZENSHIP

Release of Three Who Are
Suspected of Smuggling

Boston, Nov. 27.—The three New
York women who were held for ex-
amination by the customs officials at
this port on Thanksgiving day, after
the discovery of a false bottom trunk
with a large quantity of handmade
laces and embroideries concealed in
it, have been released because they
were the wives of American citizens.

Hilja Nelson, the young woman
whose name was on the false bottom
trunk, however, is within reach of the
authorities, so that she might be notified
in case she is wanted after the goods
are appraised.

In addition to the laces and em-
broideries, a quantity of jewelry and
bric-a-brac was also found concealed
in the trunk.

BIG BASEBALL DEAL

New Owners of Philadelphia Nation-
als Consider Team Worth \$350,000

Philadelphia, Nov. 27.—The big-
gest deal in the baseball history of
1909 was consummated in the an-
nouncement that the franchise of the
Philadelphia National league team had
changed hands and that the new own-
ers of the club had purchased the re-
lease of John Kling from President
Murphy of the Chicago Cubs for \$15,-
000.

In spite of denials by Murphy, it is
pretty generally believed here that a
part of the \$350,000, the price paid
for the club, comes from his own
bank account or that of Charles P.
Taft of Cincinnati, a brother of
President Taft, and the reported
chief owner of the Chicago National
league franchise.

TWO BARGES MISSING

Fears That They Have Gone to the
Bottom With Their Crews

Providence, Nov. 27.—Despite a
diligent search by a tug, no trace of
the two barges, Conewago and E. H.
Stetson, which broke adrift from the
tug Patience southwest of Montauk,
has been found. It is feared that both
have gone to the bottom.

The Conewago, bound for Providence,
with five men aboard, and the
E. H. Stetson for Boston, with a
crew of four, were two of a tow of
three coal-laden barges being taken
by the Patience from Philadelphia.
The Patience put into Newport with
the third barge, the Kimberton, and
immediately put to sea again to search
for the missing barges.

Fewer Horses In Boston

Boston, Nov. 27.—According to a
report which the Boston board of as-
sessors filed with the state tax com-
missioner the board assessed 17,000
horses last year and 16,600 this year.
It assessed 650 cows in 1908 and 630
this year.

THE JONES FARM CHANGES HANDS

The Frank Jones Farm once the pride of its late owner and the city of Portsmouth, has been sold to the Sids Psycho Therapeutic Institute, a new corporation formed recently under the laws of this state.

The deal has been under way for some little time and it was finally closed on Friday when the papers were passed and the corporation formally instituted at the office of the local trustee of the Jones estate, Judge Calvin Page.

The property which was transferred contains about twenty-five acres, including the house, etc. The hundreds of acres of farm land having been previously sold.

Dr. Boris of 41 University Road, Brookline, Mass., is the president and the other incorporators are Harry

WILL NOMINATE TICKET FOR CITY ELECTION

The republican caucus will be held at the court house this afternoon, from four until eight o'clock, and the present indications are of a very tame affair with no opposition to the ticket selected by the city committee. If there is an opposition to be offered the promoters are keeping it quiet and nothing has leaked out as yet. It is, however, thought that there will not be any opposition whatever.

The ticket to be offered by the city

committee for nomination will be:
For Mayor—Edward H. Adams.
For Councilmen at large—E. Percy Stoddard, Charles E. Bailey, Arthur H. Locke and William H. White.
For Board of Instruction—Mrs. Ida P. Benfield, Alfred Gooding, Michael D. Long and J. W. Hartford.
For Board of Public Works—Alfred J. Howard for three years, John Newick for two years, Harry E. Boynton for one year.
For Assessor of Taxes—Charles E. Hodgdon.

A GREAT PRODUCTION

"The Man on the Box" was a Big Success at Music Hall

New plays that have been offered in recent seasons present as many good points for the pleasure of the theatre goer as does "The Man on the Box," for it combines comedy farce, sentiment, emotion and has also a slight touch of high class melodrama, all of which, deftly intermingled by the cunning hand of the dramatist, make up a play of absorbing interest. The box of the title is the box of a carriage that was waiting to take Miss Elizabeth Annesley home from a ball at the British Embassy, in Washington. For reasons of his own, "Bob Worburton," a lieutenant of the regular army, lately resigned, donned a coachman's livery and sprang upon that box and obstinately fixed himself there. The spring and the obstinacy bring him to the police court, they bring as well many amusing consequences to Miss "Betty" and her circle. Cupid, the insinuating, even in the precincts of a police court speeds his arrows and barbs each with a new complication. The sum makes a diverting play which is acted lightly, swiftly and merrily.

The title role of "Bob" or "Robert Worburton" was in the capable hands of Wilmer Walter at Music Hall on Friday night, and the rest

of the strong cast was: Martin Cassidy, clerk of the court, Mr. Thomas P. Sullivan, Officer O'Brien, of the mounted police, Mr. Warden Ward, Charles Henderson, Bob's chum, Walter S. Weeks, Judge Watts, of the third precinct court, Mr. Harold G. Collins, Mrs. Conway, Betty's attendant, Miss Evelyn Silver, Elizabeth Annesley, "Betty" Miss Louise Langdon, Cora, Miss Alice Perry, Col. Annesley, a retired army officer, Mr. William Foote, Count Karloff, a Russian diplomat, Mr. W. J. Nason, Col. Raleigh, Mr. Frank G. Miner.

This comedy is one of the most amusing things seen here in several seasons and well acted as it was, the audience was kept in continual merriment.

The play follows closely the lines of the book by Harold McGrath.

Y. M. C. A. NOTES

When between 60 and 100 men gather from Sunday to Sunday for a meeting there is only one explanation and that is that they find it of value. For six weeks the men's meeting has had an average attendance of 80. The addresses have been stimulating and helpful and the soloists have given of their best. This week a large attendance is expected again. Dr. Dana of Exeter, who was to speak last night, is to be present, but an address of real power will be given by one of the most successful men in this conference, Rev. George W. Farmer, who will speak on a subject

constantly before every business man. Miss Jessie Burpee will sing. The gymnasium classes are in full swing now. These classes start on Monday. For business and professional men Monday, Wednesday and Friday evenings from 7.15 until 8 o'clock. This hour will allow busy men to get in their exercise and have evening for other engagements. The exercises will be such as are particularly adapted for men of this class. The High school students classes will begin on Monday afternoon at 2 o'clock and continue on Wednesday and Fridays.

The Sailor and Soldier rooms are being largely used. On a single evening 102 men were counted in the rooms.

NO KIDNEY TROUBLE OR BLADDER MISERY

A Few Doses Overcome Any Kidney Disorder and End Backache

The most effective and harmless way to cure backache and regulate out-of-order kidneys, or end bladder trouble, is to take several doses of Pape's Diuretic.

You will distinctly feel that your kidneys and urinary organs are being cleaned, healed and vitalized, and all the miserable symptoms, such as backache, headache, nervousness, rheumatism and darting pains, inflamed or swollen eyelids, irritability, sleeplessness, or suppressed painful or frequent urination (especially at night) and other distresses, leaving after taking the first few doses.

The moment you suspect any kidney or urinary disorder, or rheumatism, begin taking this harmless preparation as directed, with the knowledge that there is no other medicine, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a fifty-cent treatment of Pape's Diuretic, which any druggist can supply.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern thoroughly worthy of your confidence.

Don't be miserable or worried another moment with a lame back or clogged, inactive kidneys or bladder misery. All this goes after you start taking Pape's Diuretic, and in a few days you feel and know that your kidneys, liver and urinary system are healthy, clean and normal, and all danger passed.

Accept only Pape's Diuretic—fifty-cent treatment—from any drug store—anywhere in the world.

MIDSHIPMEN TO CRUISE ON BATTLESHIPS

Washington, Nov. 27.—For the first time in the history of the United States naval academy, midshipmen will have the use next summer of three battleships for their annual practice cruise.

Acting Secretary Winthrop of the navy department on Friday assigned the Iowa, the Indiana and the Massachusetts for this service.

The use of battleships in place of the much smaller craft usually assigned to the midshipmen will enable the embryo officers to make a long sea cruise.

Mediterranean ports will probably be visited on the next cruise, which will take place in the three months after the graduation exercises in June.

NEW CASTLE

A Thanksgiving Reunion of the Poole Family

Military Men Gave a Supper the Knights of Pythias

New Castle, Nov. 27.

The alleged beautiful sleet and snow disappeared under the sunny skies which favored New Castle on Friday almost as quickly as it came in the time of storm the day before. The cold weather preserved the winter effect and we enjoyed a white Thanksgiving day.

The Poole reunion which was held in the Town Hall on Thanksgiving day under the capable management of Mr. Ashton P. Amazeen. It will be a long remembered occasion where feasting sweetened by sentiment and unalloyed welcome reigned supreme and where formality was thrown aside and jollity presided. The hall was very prettily decorated. The turkey dinner with myriad trimmings, was cooked to the point of gastronomic perfection as only the New England housewife knows how to cook the rare-avis. The long tables fairly groaned under the weight of the plethora of dainties. Music, vocal and instrumental, of the old-time variety were rendered. Ye olden time dances were indulged in and the merry party tripped the light fantastic toe to the gladsome strains of the inspiring strains after which the fascinating game of progressive whist held the company's attention for two and one-half hours, the following favors being awarded: Ladies' first, Hayland China bon-bon dish, Mrs. Nellie Magoun; gentlemen's first, gold double knot sleeve links Cecil Tarlton; consolation, a silver turtle tape measure, Mrs. Pearl D. Poole. Many of the family were not present owing to the climatic conditions and illness of the family. Those who were favored to attend the sumptuous repast, included the following: Mrs. Esther A. Poole, Mr. and Mrs. George H. Amazeen, Ashton P. Amazeen, Mr. and Mrs. Nellie Magoun, Mr. and Mrs. Elmer Pridham, Master Delma Pridham, Mr. and Mrs. Richard E. Poole, Mr. and Mrs. Wayne D. Poole of New Castle; Mrs. Elias Tarlton, Cecil Tarlton, Mr. and Mrs. Frank Cousins, Miss Evelyn G. Cousins, Mrs. Mary Jenness, Miss Evelyn Tarlton, all of Portsmouth; Mr. John Poole of Boston. It was a late hour when the merry party dispersed to their "Home, Sweet Home."

Mrs. Gladys Barker has returned from a visit with friends in Manchester.

Sergeants Misner, Lahan, Brown Shaglow, Deane, Ladlan and Samborsky, members of the Coast Artillery, Fort Constitution and members of the Knights of Pythias, gave a supper to Wentworth lodge Friday evening and a most enjoyable time was experienced by all who had the good fortune to be present.

Among those who had the keen pleasure of being back home Thanksgiving day were included Mr. Benjamin Curtis of Lynn, Mr. and Mrs. Ivan L. Melon of New York, Everett White and Bert White of Lynn, Mr. Herbert Grogan and Ella Grogan of Boston.

DOVER DOINGS

The funeral of Bernard McCann was held on Friday in St. Mary's church. Rev. Fr. Dee was the officiating clergyman and interment was in the new cemetery.

The funeral services of Miss Anna P. Frost were held at Durham on Friday afternoon. Rev. T. Tinsie officiated and the body was brought to this city for interment in Pine Hill.

The Locomotors' union held a coffee party and dance in Weavers' hall on Friday evening which was attended by a large number of the members and their friends. During intermission refreshments were served. The affair came to a close at midnight.

The death of Mrs. Maria St. John occurred on Friday at the Wentworth hospital where she had been for treatment. Besides her mother Mrs. Georgina Lafabre, she is survived by four sisters, Mrs. Samuel St. John, Mrs. John Nowell, Mrs. Edward Drew and Mrs. Lewis Churchhill, and one brother, Whitford Lafabre.

Miss Rosella Marie Hornig of this city and Mr. Theodore H. Schultz of Lisbon Falls, Me., were united in the holy bonds of matrimony on Wednesday, Nov. 24. The ceremony was performed at the Methodist parsonage by Rev. William M. Balch. Mr. and Mrs. Schultz will reside at No. 1 Lincoln street, this city.

Smith C. Page died at his home, No. 99 Broadway on Thursday afternoon, aged 74 years. Mr. Page was born in Litchfield, this state, where he spent his childhood days. He was the son of Jofferson and Abigail Page. When a young man he went to Rollinsford and at the age of 20 years he went to the front in the war of the rebellion. He enlisted as a private

in Company B, 13th New Hampshire Volunteer Infantry on Aug. 21, 1862, and was mustered into service on Sept. 18 of the same year. On Dec. 12, 1863 he was transferred to Company D, 16th I. C. He was discharged on July 6, 1865, at Plattsburg, Pa. Mr. Page came to this city from So. Berwick, Me., twenty-one years ago and has since resided here, where he operated a boot and shoe repair shop. Mr. Page was a good soldier and citizen, a kind neighbor and friend, and he leaves many friends to mourn his death. He leaves his wife, and one daughter, Miss Nellie Page.

When Prof. Brown was here a few days since a meeting was arranged with him after the lecture and the mayor was authorized to name a committee of fifteen or more citizens to arrange a plan for the upbuilding of Boyville in our midst. The mayor has selected the following citizens to meet with him to see if such a plan can be put through in our city: Dr. A. H. Keyes, E. W. Butterfield, H. Frank Neelley, E. R. Brown, Chas. S. Curlland, Fred E. Smith, Rev. Father Richard, Chas. E. Cate, Dr. L. W. Flanders, E. C. Colbath, T. W. Woodman, Dr. Sullivan, Dr. C. A. Fairbanks, Dr. Folman, Rev. W. M. Balch, Gerald A. Searr, Dr. Richmond, Thomas H. Dearborn, Byron F. Hayes. The committee met at the mayor's office on Friday afternoon for consultation.

Is not so much to sell a Suit or Overcoat as it is to get a customer. There is a big difference between selling a man a suit and getting him for a regular customer.

But our object is to sell a man such a good suit the first time that he comes back for another one next season, and keeps coming back until he gets the habit of coming, a habit that he finds too good to break.

There are many things about our Suits and Overcoats that we could tell you, but long years of experience tells us, that a satisfied customer is one of the best advertisements a Tailor can have.

LOEB FINISHES HIS CUSTOM HOUSE CLEANING

New York, Nov. 27.—Ten more assistant weighers were dropped by Collector of the Port Loeb from the customs service Friday. The collector announced that with these dismissals the "general house cleaning" in the custom house as the result of the investigation into underweighting frauds had been completed. Some individual cases remained, however, on which he might find it necessary to take action, the collector added.

Mr. Loeb stated that there were no charges against the men removed today, but that investigation had developed circumstances which made it seem advisable to dispense with their services.

Including in this dismissal a total of \$3 men have been removed by the

collector since the work of readjustment of the staff in the customs service began. The men dismissed now were civil service appointees, and men from the civil service list of eligibles have been selected by the collector and by Deputy Surveyor Parr to succeed them.

The collector said that he wished to correct a misapprehension which appeared to him to be somewhat general, to the effect that the service rules had been disregarded in the dismissal and appointments previously made during the upheaval. This was not the case, he declared, the civil service rules having been strictly regarded and appointments of new men in all cases having been made from the civil service lists.

PRES. ZELAYA HAS CUT WIRES

Washington, Nov. 27.—The state department is still without information from the American vice consul at Managua, Mr. Caldera, and the strong inference is that the dispatches have been intercepted by the Nicaraguan officials under Pres. Zelaya, at least to the extent of cutting the telegraph wires. The department has no doubt that Mr. Caldera has attempted to communicate with it several times in the last week or more.

Owing to the absence of specific information which was sought to be obtained through Vice Consul Caldera and other agencies, the officials here undoubtedly will delay at least for a time before taking other action.

A dispatch received from Bluefields reassures the United States as to whether American interests or American citizens are being interfered with by the revolutionary army. In effect the dispatch states that great care is being exercised to protect American interests.

The advice add that the steamship Dictator, belonging to the Bluefields steamship company, which came into the possession of the revolutionary forces about a week ago, was detained only one day, and that such detention was only for the purpose of examining the vessel with a view to determining whether she carried contraband

goods. The delay, it is said, resulted in no damage to the steamship company.

It is reported that Amelio Espinosa of the revolutionary provisional government has given up the post as minister-general.

It is generally understood that Mr. Espinosa, who is a brother of the former minister from Nicaragua to the United States, and who recently resigned, will be elected president of the new republic under Gen. Estrada, should the revolution be successful.

TO REVIEW MARINES

Sec. Meyer Leaves Washington to See the Battalion About to Set Sail for Central America.

Washington, Nov. 27.—Sec. Meyer left Washington Friday for Philadelphia, to review the battalion of marines about to sail on the Pacific for the isthmian canal zone and possibly for Nicaragua, in event their services are needed in that country.

Arrangements for the review are in the hands of Representative Butler of Pennsylvania, a member of the committee on naval affairs. Orders for the departure of the marines have not been issued, but they are in readiness to leave any day.

MARRIED AT YORK BEACH

The wedding of Miss Georgie Emery, daughter of Mr. and Mrs. Thos. Emery of York Beach, and Mr. Arthur Davis of Somerville took place at noon on Thanksgiving Day at the home of the bride's parents at York Beach, Rev. H. A. Platts, pastor of the Union church, performing the ceremony.

The double ring service was used and Master Norman Emery was the bearer. The bride was prettily gowned in white laces trimmed with with silk applique, and all-over-lace, and she carried a bouquet of bride's roses.

The ceremony took place in the living room, which was prettily decorated and they stood beneath a large floral horseshoe. A wedding dinner was served and Mr. and Mrs. Davis left in the afternoon for a wedding trip to New York, and on their return they will reside in Somerville. The bride is a daughter of Thomas Emery, engineer on the York Harbor and beach railroad.

STODDARD AND MILTON

The republican committee of ward one, after a lengthy meeting on Friday evening, agreed on a ticket for the caucus today and Monday.

The committee had been holding off until the return of Councilman Henry P. Payne from the west, with the hopes that he could be prevailed upon to reconsider and accept the nomination. He arrived home on Thursday and his answer was the same, he positively refused to allow his name to be used, and with that, Ward Councilman Eben Blaisdell also withdrew from the field.

The committee finally selected E. Percy Stoddard as councilman at large, and John Milton as ward councilman.

The ward caucus will be held on Monday evening.

DINNER AT DOVER

A party of about 100 sailors from the U. S. S. New Hampshire, enjoyed a Thanksgiving dinner served in the best style with all the fixings, at the "Stolen Key" restaurant in Dover on Thursday and the assemblage was a merry one.

The newspaper reports from Dover state that all the boys were in a jolly mood and they made things lively during the dinner hour, nevertheless conducting themselves in a gentlemanly manner.

ROOSEVELT COMPLIMENTS PEARY

New York, Nov. 26.—A letter from Theodore Roosevelt was received by Sec. Bridgman of the Peary Arctic club today replying to the cable announcing that Commander Peary had reached the north pole, as follows:

"On Safari, north of Mt. Kenya, Sept. 22, 1909.

"Dear Mr. Bridgman:
"Your cable has just been brought me by a native runner, here in my camp by the Guaso Nyiro. I am writing to Mrs. Peary and to Capt. Peary; I have no idea where he is. I am inexpressibly rejoiced at this wonderful triumph, and proud beyond measure, as an American, that is one of the great feats of the ages—should have been performed by a fellow countryman of ours.

"It is the great feat of our generation. We are Capt. Peary's debtors, all of us who belong to civilized mankind. Faithfully,
"Theodore Roosevelt."

MAY SEIZE LIQUOR

Maine Officers Can Act under the Pure Food Law

Augusta, Me., Nov. 27.—In a report handed down by the Maine Law court Friday, it is said that state officers may seize liquors under the pure food law, not as representatives of the national government, but as deputies of this state.

This rescript will have an important bearing on the enforcement work of Maine. Cases are now pending before the United States courts in which the Boston liquor dealers seek to enjoin Sheriff Hastings of Androscoggin county and the sheriffs of every county in Maine from seizing liquors under the pure food law. It is claimed by the petitioners that only the United States government can act under this law.

The latest ruling of the law court analyzes the subject in a new way. Chief Justice Emery, who drew the rescript, says that liquors which do not comply with the pure food law are forbidden to be introduced into this state from another state and hence are removed by congress from the operation of the interstate commerce clause and become subject to the laws of the state upon their arrival within its territory and before delivery to the consignee.

MACHINE DETECTS DRINKING
Kansas Apparatus to Prove Use of Stimulants

In working out a plan to determine whether or not athletes were violating the rules of the schools as to drinking and smoking cigarettes, Dr. James Naismith, head of the physical training department of the University of Kansas, has invented a machine that probably will prove of great interest and value to the wife whose husband stays out at night.

Also it will come in handy to the mother whose son has been doing things he ought not to do. The machine is absolute in its detection of the use of alcohol, tobacco or other stimulant.

The device consists of a rod a quarter of an inch in diameter and another rod twice as large. Both are connected by electricity. In the end of the larger rod is a hole into which the smaller rod fits easily. To make the tests the person is required to hold the two rods so that the smaller one fits into the other.

Any nervousness caused by the use of artificial stimulants is recorded on a sheet of paper by an electric needle. When the two rods are brought together, the current is formed and the markings made by the needle show whether or not alcohol, tobacco or any other stimulant or narcotic has been used by the person tested.

TOO LATE.

Papa's Offer Came After George Had Settled Matters Himself.

A Philadelphia small boy had something to say to his father at the dinner table the other night.

"Papa," he said, "Johnny Burton is going to have a party next week, and he said he'd invite me. Am I got to take a present?"

"A present! What's that for?"

"It's for Johnny's birthday. All the kids take presents."

"Things hadn't gone just right during the day with the boy's father. He was not in an agreeable humor.

"That's all nonsense!" he declared. "Every day or two it's a present here or a present there. If you can't go to a party without taking a present you might as well stay home."

The boy's lip trembled, but he made no reply.

The next day the father regretted his hasty words and that night turned to the boy.

"George," he said, "there are a couple of new books in my overcoat pocket. You can take them to your friend Johnny's party."

"It's too late," said George gloomily. "I licked him today so he wouldn't invite me."

Not Yet.

A Missouri clergyman had in his pastoral flock a member who was reluctant about meeting the contribution basket. The pastor had thrown out many broad hints, but all to no avail.

One day the member fell ill and was taken to the Emsworth hospital. When the clergyman arrived the man was delirious. While the pastor was sitting beside his bed a wild yell of "Fire, fire!" came from across the street.

The sick man drew himself up on his elbows. "Where—where am I?" he asked excitedly.

"Calm yourself, brother," soothed the pastor, with just the faintest twinkle in his eye. "You are still at the Emsworth hospital!"—Lippincott's.

Sacrifice and Devotion to Country.

Every act of noble sacrifice to the country, every instance of patriotic devotion to her cause, has its beneficial influence. A nation's character is the sum of its splendid deeds. They constitute our common patrimony, the nation's inheritance.—Henry Clay.

The Woman, of Course.

An English lady who made a tour of Scotland delivering addresses in the interest of woman suffrage said that she had had troubles of her own. At one meeting, at Grantown, in the highlands, an argument was advanced

A VOICE FROM THE BACK OF THE CROWD.
ed to which she was unable to find an answer. Speeches had previously been made to a large crowd. Questions had been replied to amid applause. Imbecile young men making remarks about minding babies and mending socks had been silenced. Then, just as there was a temporary lull before the putting of the resolution, a great buccolic Scotch voice from the back of the crowd rasped slowly in with the inquiry, obviously the result of prolonged rumination, "What made a mess of Adam?"

Thought It Was Time.

The minister of a rural church gave out the hymn, "I Love to Steal a Whistle Away," etc. The regular old precursor being absent, his function devolved upon a good old deacon, who commenced, "I love to steal," and then broke down. Raising his voice a little higher, he then sang, "I love to steal." At length, after a desperate cough, he made a final demonstration and roared out, "I love to steal!"

The effort was too much. Every one but the parson was laughing. He rose and with the utmost coolness said: "Seeing our brother's propensities, let us pray."

Her Little Bluff.

Mrs. Finletter and her husband had just moved into a fifteen dollar seven room house. The first Sunday morning there, as Mr. Finletter sat with his newspaper on his little porch and all the neighbors on both sides of the street sat with their newspapers on their little porches, Mrs. Finletter suddenly came to the front door and shouted at her husband in a loud, excited tone:

"Hilary Finletter, will you or will you not come in to luncheon? The champagne is nearly flat, and you know how soon a dish of terrapin gets cold!"

Finletter tossed down the paper and hurried indoors with a dazed smile.

"What are you kidding me for?" he asked as he looked at the ramp steak and potatoes on the dining table.

"It's not you, Hilary, I'm kidding," said his wife. "It's the neighbors."

JOHNSON
AND LANGFORD
MAY MEET

New York, Nov. 27.—Jack Johnson is ready to fight Sam Langford and will sign the articles at once for the battle to take place within thirty days. The only condition the champion makes is that Langford make a side bet of \$10,000.

This announcement was made today by George Little, manager of Johnson. Here is what Little had to say:

"While in Pittsburg last week Joe Woodman, Langford's manager, announced that he had posted a side bet of \$10,000 with a New York newspaper. I came here today to cover this money and am told that Langford's cash is up in Pittsburg. I know that it is not up there, for I was there all last week. I have \$10,000 posted with a newspaper in Pittsburg, which is to cover Langford's money, but I cannot find the coin anywhere.

"To Fight Within Thirty Days.

"Plainly the Langford people are misrepresenting things. However, that doesn't matter a bit. If they are sincere in wanting the match they can put up their money now and the fight will be on. It can take place within thirty days. That should be agreeable to Langford, for he is in great shape now.

"I will insist on the \$10,000 side bet going, though. It will cost us about that much in cancelling theatrical engagements to take on the fight.

"Now, it is surely up to Manager Woodman and Sam Langford. They will either have to come through or stop their foolish holler that Johnson fears the Boston colored man."

"In Boston, Joe Woodman said that the \$10,000 side bet will be posted tomorrow, and that Langford stood ready to meet Johnson in thirty or sixty days.

STRATHAM

On Sunday evening, Rev. Bernard Copping gave an address at the anniversary of the Christian Endeavor society of the Christian church at Kittery Point, Me. Mr. Copping's topic was "An Ancient Model for Modern Times." Next Tuesday evening Mr. Copping will give a lecture in the Congregational church at Kensington; the subject will be "A Talk about an Old Town."

On Sunday morning Rev. George E. Lake, a former pastor of the Congregational church, will preach in town Mr. Lake will be the guest of St. D. Rowe.

The meeting of the three Stratham churches will be at the Congregational vestry on Sunday night. Either Rev. Thomas Sparks or Rev. J. H. Mugridge will give the address.

This Mission circle will meet on Thursday, December 2, with Mrs. B. Chase. The subject will be "Cuba;" there will be readings and music.

A report is confirmed that a deer has been found dead in the woods of Stratham, which has apparently been killed for about a week. The animal was shot with a rifle, as the bullet hole was easily detected. As the law is on these animals till Dec. 1, some one has overstepped the statutes, as has been done repeatedly all the fall on gray squirrels.

A pleasing entertainment was given at the town hall on Thursday night, one in a series to secure funds for improvement of the hall. It included a farce, "A Gentle Jury," 12 women composing the cast, singing by a male quartet, which also presented the farce "Fun in a Laundry."

NEWMARKET

John J. Hanson Camp No. 30, S. O. V., was inspected by Charles E. Sanders of Manchester on Tuesday evening. One recruit was mustered into the camp. The inspector found the camp to be in a good condition, especially the books of the secretary and treasurer. A baked bean supper was served, followed by remarks by the inspector and several brothers.

Rev. W. Lincoln Phillips will close a two and one-half years' pastorate with the Free Baptist church and people Sunday evening. He will become pastor of the Hampton Free Baptist church and people Sunday evening.

He will become pastor of the Hampton Free Baptist church the first Sunday in December. The Rev. T. M. Sparks of Stratham has accepted a call from the Newmarket church and will begin his labors the second Sunday in December.

He was a deep thinker, a great reader, a man of highest ideals. He would read, and listen enraptured, to the reading of standard literature, to the rendition of classic music, and would gaze reverently upon works of art. Yet few knew of his great love for the beautiful, because of his extremely quiet tastes and decided aversion toward anything that suggested ostentation.

On the day that he found it imperative to take a vacation and before going to his beloved family in Waltham, he attended to the execution of every detail that would make matters easier for others, should he be obliged to remain away longer than he anticipated.

To those who are left to mourn the severing of the evanescent life which marks the transition from life to death, there must come the solace and the consolation that after such a life of unselfish devotion, of kindly deeds, of noble purposes, the dear one has been summoned to the reward of eternal peace.

It may be truly and fittingly said of him: "He added to the sum of human joy, and where everyone to whom he did some loving service to bring a blossom to his grave, he would sleep tonight beneath a wilderness of flowers."

And now to the departed spirit of the kind and loving husband, to the fond devoted father, to the tried and trusted friend, we can only say:

"Farewell! In little time and we who knew thee well, and loved thee here,

One after one shall follow thee As pilgrims through the gate of fear, Which opens on eternity."

NAVAL MAGAZINE

Government Not Yet in Possession of Land at Hingham, Mass.

Washington, Nov. 27.—Probably half a dozen years will elapse before the new naval magazine at Hingham is completed, is the opinion of officials of the ordnance bureau of the navy department. The department has received a report from Lieut. Col. Latimer, commandant of the magazine, stating that progress is being made on the construction of a branch railroad into the reservation fences and a small barrack for the marine guard.

The work of constructing the magazine buildings proper has not yet commenced and will not be until the condemnation proceedings instituted by the government against the owners of land desired for the site are completed. This may take another year.

In any event no important construction work will commence until after the next fiscal year, as Secretary Meyer is understood to have refused to ask for an appropriation for next year.

The Hingham magazine was authorized five or six years ago and the government has not yet obtained possession of the necessary land.

\$3.50 Recipe Cures Weak Men—Free

Send Name and Address Today—You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it the surest acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow man to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop dragging himself with harmful patent medicines, secure what I believe is the quickest acting restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 4724 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge \$2.00 to \$5.00 for merely writing out a prescription like this—but I send it entirely free.

NEWINGTON

The work undertaken by Contractor Trueman, of Portsmouth to rebuild the dwelling house of Mrs. Margaret Henderson Pickering, destroyed by fire several weeks ago, is progressing, although it cannot be completed this fall. Herman Wilbur, of Greenland, is foreman. George Wiggins and John Crowell, also of that town, are employed as carpenters. The outbuildings will be replaced next springtime.

Frederick Pickering's trip to California for a month's absence in looking after business interests will soon be over, as he left here three weeks ago.

WARD 4 REPUBLICAN CAUCUS

Republicans of this city will hold a caucus in the South Ward Room, Monday, Nov. 29, 7-8 p. m.

Order of Ward Committee,

HIS STURDY WATCH.

He Keeps It in Repair Himself With the Aid of a Knife.

"Some men, don't you know," said Mr. Crillickton, "will stop off a curb, step down about a foot and break a leg, and then another man will fall off the top of a seventeen story house and not even muss his clothes. And it's about the same way with watches.

"I dropped my watch the other day about six inches on to a thick plush carpet, and it cost me \$10 for repairs. When I was out walking with my friend Bwilkwillby this morning he dropped his watch on the sidewalk, and it didn't so much as stop it.

"It sounded when it came down like a safe falling out of a high window, and it was only a two dollar watch, and I expected, of course, to see Bwilkwillby just kick the fragments off the sidewalk and pass on, but it seems Bwilkwillby knew the watch better.

He picked up the crystal, not even cracked, from where it had fallen, seven feet away, and put that in his pocket, and then he looked at the watch.

"It was going all right, but somehow in the fall the long hand had got bent. He straightened out that bent hand with his pocketknife so that the two pointers wouldn't catch, and then he pried off the crystal rim of the watch and put the crystal back in place, and then he snipped the rim back on the front of the watch again, and dropped the watch in his pocket and started on, and 'As I was saying,' he said, 'just as if nothing had happened.'"

BESTING THE BOASTER.

A Little Problem That Floored the Lightning Calculator.

"Now, gentlemen," concluded the lightning calculator, "I have demonstrated to you upon this 'ere blackboard the marvelous speed and accuracy insured by my great system of addition, subtraction, division and multiplication, and I trust that you are all satisfied with the results. Now, gentlemen, I have 'ere a little shilling booklet explaining my marvelous system in full and by a careful perusal of which I will guarantee you to become as expert a lightning calculator as myself, within the period of one week, by which time I shall be out of the town. Amen! Now, gentlemen, when you recall that I was straight away able to multiply 1,111,111,111,937 by 987,111,111,111,111 perhaps you will—"

"One moment, sir!" called out a shrill voice from the back of the crowd.

"I'm no scholar myself, but I was wondering the other night how old a child born in September, nineteen nought nine, would be in September, nineteen nought ten?"

"The lightning calculator threw his interrogator a look of contempt.

"One year, of course, my little man," he replied sarcastically.

"Well," retorted the shrill voice, "I think if you were to go home and improve your own arithmetic you would find that child would be 17,131 years old."—London Answers.

A Matter of Smokestacks.

The smokestacks on the vessels of recent years have been made to slope backward more particularly to give the steamer a rakish air, the masts also being given the same slope. As to the effect on the draft, there is a slight one, as the wind pressure on the front of the stack sloping up and over the top of the stack is more apt to draw the smoke out than to cut it off, but from all we are aware of this seems to have been held of secondary consideration. The shape of the smokestacks also is changing from round to oval so as to present less surface to the front. If you compare the steamers with the sloping and straight smokestacks, in one case the former, while motulouss, still appears to have life; while the rigidity of the other gives it an appearance of stiffness even while under considerable speed.—St. Nicholas.

The Hunter and the Wind.

In hunting against the wind in open forests more game is passed than many hunters would suppose. The animals see the man, note that he will pass them and hide by getting as near to the ground as possible. If they scent him after he has passed they evidently realize that the danger is over, though some, mostly the younger, inexperienced animals, then sneak off.

Where game is very wild it is often in such localities as I have mentioned such possible to approach them with the wind by outdistancing the latter, because a big game animal at rest depends on its nose to save it from danger in the direction from which the wind comes and on its eyes to watch the side from which it can get no other warning.—"Truck and Tracking," by Josef Brunner.

Welsh National Costume.

When the French made a half hearted attempt to invade Great Britain in 1797 a landing was made at Fishguard, Wales, but the soldiers of Napoleon were frightened off by the sight of a great number of Welsh girls and women, whom they mistook at a distance for soldiers on account of their red dresses and tall black hats. That is still the national costume of the Welsh women.

Crushed.

Mr. Thid (hearing noise at 2 a. m.)—I think, dear, that there is a man in the house. His Wife (scornfully)—Not in this room.—Boston Transcript.

Going to Be a Big Game

According to reports the Portsmouth football team will give the New Hampshire boys a lively battle on the gridiron on Tuesday next and say they will carry off the honors. The sailors look at it another way and will put up the stiffest game of the season. Both teams have been strengthened for the game.

She Can Walk Some

Dr. Hough of the U. S. S. New Hampshire, and wife, and Miss Helen Spanton of Virginia, are stopping at the Keepers farm on Belle island during the stay of the vessel at this port. Dr. Hough recently took his 50-mile endurance test and was accompanied on the first day's walk by Miss Spanton, the young lady making twenty-five miles in eight hours' time. On the following day she walked six miles in two hours.

Visiting His Home

Chief Machinist's Mate George Pratt of the U. S. S. Wabash, Boston, formerly of the tug Neacomb, has been passing a few days with his family here.

Temporary Duty on Yard

Assistant Paymaster Manning H. Philbrick of the general store, has been temporarily transferred to duty as yard paymaster, relieving Paymaster Meyer, who goes to the scout cruiser Salem.

Sterling off Cape This Afternoon

The U. S. S. Sterling on her way to this port with coal was off Cape Cod this afternoon and will likely take her berth at the yard on Sunday.

New Bids for the Work

New bids for the repairs of the yard bridge leading to Kittery have been ordered and will be opened in Washington on February, 1910. The previous proposals for the work were opened last August and for some reason or other none were accepted.

It Made Good Reading

The story of the Swift board concerning the reorganization of the navy published in the Herald of Friday was read with much interest by yard officials and workmen. The officials are of the opinion that the

official document to make its appearance on Dec. 1 will announce something more definite relative to the management of the several yards.

Hospital Crowded

Owing to the large number of sick men of the service at the hospital here Dr. Wells has ordered that some of those confined there be sent to other naval hospitals. Three were sent on Friday to Chelsea and four to New York.

Wind Wrecks the Wireless

Part of the wireless rigging at the station on Sevey's Island blew down in the gale of Wednesday night. The crew worked on Thursday making repairs and succeeded after much toil in establishing communication late in the afternoon.

Busy Days on Court Martial Board
The local court martial board at the yard was recently in session for fifteen days. An extra long period of work for this naval court.

Will Put in at Newport

The U. S. S. Wisconsin will put in at Newport for a stay of eighteen hours after leaving here on Sunday. From there she will proceed to Hampton Roads.

To Stay on the Job

Paymaster's Clerk Thomas A. Henry of the yard pay office will be retained under the change made today.

MARK THE STATE LINE

A Needed Change Should be Made on the Bridge

The question has often been asked where the dividing line is of the states of Maine and New Hampshire between Portsmouth and Kittery. The line of course is on Portsmouth bridge but where, and how is anybody to know where the states connect?

There is no stone or post indicating the line and through there has never been any trouble owing to its absence it does not signify that it will always be that way.

There should be something there, for several reasons. If it were a case of a county, state or city officer hunting a criminal who escaped from either state the question is, how far could the officer go on behalf of either state and arrest on behalf of either state and arrest the bridge.

Again automobilists and other travelers on the highway have often looked for something to tell them exactly where they pass from one state to the other.

This situation does not exist anywhere else in this section and it is astonishing that so many years have passed and nothing been placed on the bridge for this purpose.

53 YEARS IN BUSINESS

The Anniversary of H. M. Curtis at New Castle

New Castle, Nov. 27.—H. M. Curtis today finishes fifty-three years in business. He started on November 27, 1856, with George B. French. In July or August, 1860 his partner Mr. French, left here and went to Portsmouth and started the dry goods business which is now continued by his son.

Mr. Curtis believes that he holds by far the longest record for continuous business in one town in this vicinity. The many friends of this popular New Castle citizen hope that he will be with us many years more.

CULBERSON OBJECTS

Wants No Tinkering with the Interstate Commerce Law

Washington, Nov. 27.—Senator Culberson of Texas, the minority leader said on Friday concerning the approaching session of Congress:

"There must be no tinkering with the Anti-Trust law. As it stands it is a very good law. Of the several suggestions toward amending, I see no other result that would follow their adoption than such as would demoralize both the civil and criminal sections of this law.

"I am in favor personally—and I believe the majority of the Democratic senators agree with me—of extending the power of the Interstate Commerce Commission so as to make its rate fixing power effective. I am strongly in favor of giving the commission broad power to regulate railway rates.

"I am opposed to any ship subsidy measure whatever."

HORSES GOING DOWN

For several hours this morning the asphalt paving was certainly all to the bad for horses and they were skating every way and many of them took the fall.

On Market street the horse of Joseph Sacco fell and put the delivery wagon out of commission by smashing both shafts and otherwise damaging the vehicle.
